

Communicating solutions to land use issues and reindeer husbandry

Tobias Jonsson, Niklas Jonsson, Eva-Lisa Myntti

Gran sameby

Per Sandström, Stefan Sandström, Gun Lidestav

Department of forest resource management - Landscape studies SLU, Umeå

Final BuSK conference, Rovaniemi, 11-14 February, 2019

WP T1 Indigenous and local knowledge (ILK) as part of cultural heritage

”Develop and provide **tools, methods and practices** for taking ILK into account in land-use planning and decision making”

How we worked together

Gran sameby brings issues to the table

- Two women and a dog corral
- Provide necessary basis for the planning of the North Bothnia train line
- E4 highway ecoducts (reindeer over-passes)
- Mapping of reindeer movement routes
- Renbruksplan mappings
- Kristineberg mine
- Nasafjäll mine
- Wind power development
- Forestry consultations
- Municipal planning
- Vindeln UNESCO biosphere area

SLU provide data and support

Gran sameby provide knowledge and do the mapping

Co-production of methods, knowledge and inspiration

We take **solutions** to meetings and decision makers

What **solutions** did we produce?

- Written reports
- Mappings of ILK and historical data
- Presentations using pGIS (RenGIS)
- Information presented at meetings
- Drone movies

- And now real movies

Thank you!
